ACT5_B016 — REVISE

Narration: a sales system that rewarded impossible numbers ignored warnings and treated people

Timing / duration: 577.515875746582–583.0758733051757 sec; 5.55999755859375 sec

Approved visual intent: The record contradicts the clean version.

Visual description: Same frame cracks and distorts, revealing document layers beneath.

Current prompt: Clean corporate statement surface with hairline cracks spreading across frame, fracture lines revealing layered document edges beneath sterile surface, visual metaphor of narrative breaking apart, editorial design aesthetic, dramatic lighting emphasizing fracture pattern, still composition

Proposed prompt: Use the approved ACT5_B015 clean frame only as the compositional reference for ACT5_B016's cracked-frame derivative. Preserve ACT5_B016's approved intent: a clean corporate statement surface develops hairline cracks and reveals document layers. Do not use the ACT5_B015 frame as ACT5_B016's final output and do not reuse it for other beats.

Negative prompt: real documents, readable text, corporate logos, identifiable names, cheerful imagery, complete destruction, fire or violence, cartoon style

ACT5_B017 — APPROVED_AS_WRITTEN

Narration: lower down as disposable when the system finally became public

Timing / duration: 583.0758733051757–588.4158696430663 sec; 5.339996337890625 sec

Approved visual intent: People below absorbed as system cost when exposure arrived.

Visual description: Distinct restrained composition of an anonymous desk after belongings have been removed, without repeating a packing action.

Current prompt: Illustrative reconstruction: a quiet generic office desk after personal objects have been removed, with one closed plain cardboard box in the foreground and an empty chair beyond. No people, readable material, logos, or identifiable office. Use a composed aftermath image distinct from a person packing belongings.

Proposed prompt: Illustrative reconstruction: a quiet generic office desk after personal objects have been removed, with one closed plain cardboard box in the foreground and an empty chair beyond. Additional decisions

Rejected same-beat aliases: ACT3_B005, ACT3_B023, ACT3B_B014, ACT5_B012, ACT5_B017. No cross-beat asset sharing is approved.

The 34-row generated_clip → controlled_image correction (productionMethod remains CONTROLLED_STILL) is approved as a human editorial decision but is not applied. The 23-clip five-second trim/end-frame-hold policy and documented 30-fps rounding are approved as decisions but are not executed. Provider route, terms, ownership, current price, codec, dimensions, container, and provider-returned duration remain unresolved pending pilot.

ACT5_B009: deterministic controlled graphic, zero provider calls, exact labels 2013 through 2023. The current approved method is GENERATED_STILL, so a separate unsigned child amendment is required; the beat remains blocked.

ACT5_B016: use ACT5_B015 clean frame only as a compositional reference for the cracked-frame derivative. The exact approved source path/hash is unbound locally; no general cross-beat sharing is approved.

ACT3_B027 and ACT5_B021: revision decisions recorded, but the exact review-response wording is unavailable. Their prompts have not been changed.
